

APPENDIX 1: SERVICES & PLAN DETAILS

Each plan will be contracted for either 6 months or 1 calendar year. A patient or patient representative will have the option for renewal at the completion of the contract. The plan gives significant discounts on co-pays and treatment options. The plan may be used as many times throughout the contracted time frame as needed. Services rendered are based on the capacity and capability of the clinic. The servicing price list is for dollar amounts for EACH MEMBER. If the visit is complex needing more than one service a bulk price can be negotiated. Discounts are also applied to splints, crutches, and in house medications. In some cases, certain diagnosis/treatments may be outside the scope of the health care plan, but medical advice will be provided for the best direction for the plan of care. The plan will, also, give clients access to discounted medications not available in the clinic and will be ordered on an as needed basis. Some laboratory services are performed in-house, and if needed for send out, DLO will be utilized. With the exception of Tetanus, vaccinations are NOT offered under this plan. Influenza vaccines may be an option but will be ordered on an as needed basis. Due to the restrictions of outside vendors, the contractual agreement does not provide discounts on the weight loss programs. This price list is not all inclusive.

VISITS & PROCEDURES

Services/ Products	Price
Telehealth Visit	\$25
